General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalsajsse.com/index.php/SAJSSE/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The introduction must be rewritten. It's superficial, it lacks facts and numbers that could make it stronger. It is not clear who were the respondents of the survey, staff from food and beverage industry, but any staff? Didn't they need to have some background to answer? It was presented that more than 300 were the sample, but in the results the numbers are 40. It is complicated. There is much more to be read from the results, the authors go from results to conclusions, no discussion, it lacks a deeper conversation with the theories presented above.	
Minor REVISION comments	The authors could bring specific data about Nigeria (GDP, food and drink industry participation) It needs a grammar and orthographic review.	
Optional/General comments	although it may be interesting, it has some serious developing in writing to be made	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u><i>(If yes, Kindly please write down the ethical issues here in details)</i></u>
