Compulsory REVISION comments	<p>The manuscript is very good as investigation helps track the progress towards the achievement of the SDG 6 however I suggest the following areas can be improved;</p> <ol style="list-style-type: none"> The authors have presented only limited information on the state of the country before the implementation of the SDGs. In Fig.1, the SDG 6 index scored 63 in 2018, 88 in 2019 and 83 in 2020 while the overall SDGs index scored 57, 60, and 66 in 2018, 2019 and 2020 respectively. Therefore, the two indicators show different pattern especially from 2019 to 2020. There are some grammatical and typo errors that must be corrected. <p>To improve the quality of the manuscript, I suggest the following:</p> <ol style="list-style-type: none"> Add more information on the nation's status after the MDGs before the SDGs implementation started. Reconsider the interpretation of the Fig 1 for the necessary correction. Check the whole manuscript for grammatical and typo error correction
