

**Editor's Comment:**

The Abstract must be written as a narrative, not by points.

I think that is necessary, inside the paper, however the abbreviations to be written in full. It is difficult to read and understand.

In Conclusions, No References! There are only the author's opinions, ideas, forecasts...

Also, we want to know what is the share of Agriculture in India's GDP and the possible future using this method of improvement,

References to be written in alphabetical order of the authors' names, not mixed.
