<b>Compulsory</b> REVISION comments		
<p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>Yes, it is imperative to audit changes in mortality over time.</p> <p>Yes Background stating 'value of CABG in low EF patients is difficult' needs refreshing as low EF CABGs are being performed.</p> <p>Need grammatical and technical corrections</p> <p>Yes</p> <p>Yes</p> <p>Heart transplant is not the solution for all low Ef patients so if mentioned indications should be specified. Since it is tertiary centre, the seniority of surgeon needs standardisation and mentioning as it is known to affect mortality. Perfusion scan to know the viability of cardiac muscle, the type and number of grafts need mentioning as it affects morbidity and mortality.</p>	
<b>Minor</b> REVISION comments		
1. Is language/English quality of the article suitable for scholarly communications?	Needs grammatical correction	
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
