

Editor's Comment:

I read the manuscript "

Seasonal Incidence of Insect-pests, Natural Enemies and Pollinators of Solanum melongena L. and Correlation Between Their Daily Occurrences with Weather Parameters" and the other documents including the peer review and the revised paper. I

think it is suitable to accept this paper to be published in our journal.

Editor's Details:

Dr. Baohui Li

Associate Professor, North China Electric Power University, China.
