(If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. The manuscript has practical significance for scientific community. The study use the primary data was collected from 75 lac farmers to find out the present status of production and marketing of lac. The Results of this study shows thats more than 35 tons of lac is exported to other states from West Karbi Anglong districts annually. Due to their traditional practice these producers are receiving low price for their product as low as compared to market rate. The study indicates the constraints in Production and Marketing of lac.</p> <p>2. The title of the article is suitable.</p> <p>3. The abstract of the article is comprehensive.</p> <p>4. The subsections and structure of the manuscript are appropriate. In Methodology, the author needs to add the reason for choosing the sample.</p> <p>5. The manuscript is scientifically correct.</p> <p>6. The references should be cited in the study.</p> <p>7. Suggestion and Policy implication should be more specific</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Language/English quality of the article is suitable for scholarly communications but the author/authors needs to specify the periods in the research.</p>	
<p>Optional/General comments</p>	<p>This paper is required compulsory revision comments.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
