| Compulsory REVISION comments | <ul style="list-style-type: none">- In the abstract, it is still not clear between the review methods used, as well as the results and conclusions are still not clear- in the paper it is still unclear what is the difference between estimation and investigation on the purpose of this study- The method of reviewing articles on papers is also unclear so it seems that you yourself who did this research are not the result of a review of the articles you reviewed | |
| Minor REVISION comments | there are still references that are over 10 years old and conclusions do not exist | |
| Optional/General comments | improve the abstract, add the review method, also write down the conclusions and fix the references | |
