PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes Title is very generic. Can be enhanced. One possible alternate title is "Case Study on Tabetic Arthropathy: Exploring the Connection Between Neurological Disorders and Joint Damage" No. Can be improved Yes Partially</p> <p>References are sufficient. But they are not very recent. Recent references can be included.</p> <ol style="list-style-type: none"> 1. Alignment and paragraphs are not good. No justification. Single line or double lines are considered as a paragraph. Kindly avoid it. 2. Two cases are reported in the article. Both subjects are male. Please include one more subject that should be a female. 3. In the Introduction part, more details about Tabetic Arthropathy can be included. Like statistics about Tabetic Arthropathy can also be included. 4. Conclusion section is very less. Add few more points. 5. Little more detailed analysis can be added in the Discussion section. 6. 	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Yes.	
<p>Optional/General comments</p>	Needs little improvement.
