If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>- Yes, the manuscript is addressing current issue of climate change which is of globally.</p> <p>- No very clear of the words "Poverty Diseases" in the title. Maybe use "Poverty Related Diseases"</p> <p>- It is comprehensive however needs some slight rephrasing to bring the scientific aspect/language</p> <p>- <b>No</b>, some are in capital letters others small letters. Depending on the journal manuscript format may advice</p> <p>- Not realistically correct. Only on assumption that only poor families live along River Niger in Edo and Kogi States</p> <p>- Some references are not recent. Some dates back to 2004. Add more recent references, may within last 10 years.</p> <p><b>Other Comments</b></p> <p>- ... extreme weather is predicted to become more common on animals, plants and crops, which are all expected to be badly affected – Are human not affected? Be precise what the difference between plants and crops? Are plants crops or crops plants?</p> <p>- Put all equation in equation environment. They don't appear smart for one to follow.</p> <p>- Equation 1, what is the dimension of n?</p> <p>- No ethical statement about data collection. Include</p> <p>- <b>There is</b> no conclusion in this article</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>- It is slightly above average on scholarly scale.</p>	
<p><b>Optional/General</b> comments</p>	<p>- Check on the few typo errors on the document.</p> <p>- Put a conclusion</p>
