Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments	The research is one of the good researches in this field, and the appropriate research and analytical method was used, and the results were consistent with economic theory and statistically correct, so the research is good and does not contain scientific, statistical or spelling errors, but I advise the researcher to do the following: The research is descriptive in its entirety and does not contain statistical analyses, but it is suitable for publication with its poor content. We ask the researcher to expand the methodology and expand the results so that the research becomes more quality. It is not possible to modify the research because it is more descriptive than analytical. Research is valid for publication Expansion of writing recommendations attached to the research results
