<p>1. Self Esteem, Depression and Life Satisfaction are the parameters/as titled by the authors could not depend solely on HAART therapy received by the patients, also</p> <p>2. only about 50% positive response &</p> <p>3. study on few selective population.</p> <p>The conclusion derived by in the study looked rather inadequate.</p>	<p>1. Other factors might have influenced self esteem, depression and life satisfaction of the respondents and not only their dependent on HAART. This has been indicated as a major limitation of this study and efforts will be made to correct such limitations in future research</p> <p>2. The 50% positive responses is based on the outcome of data analyses</p> <p>3. The study was based only on patients receiving HAART and this might have affected the conclusion derived from the study</p>
