Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	1.- Yes, it is a very interesting topic. 2.- Yes, it contains the topic to study 3.- Yes, please carefully check the grammar 4.- Yes 5.- Yes 6.- I think that the references are relevant and helpfully to understand the model and the problem	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	Yes, but I suggest that the whole paper needs a grammar revision since there are some misspelled words.	
Optional/General comments	I think that the paper is very good. The information is about a problem and the paper give us a solution using a model. However, there are some details that need to be improved: 1.- Please give a uniform letter style there are sections with a different size or type of letter (arial, times new roman etc) 2.- The same for equations, some of them are different kind in text and in the equation definition	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
