	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	1. Yes. 2. This is my recommendation to not to include study site in the title of this article. 3. Yes 4. Yes 5. The data collection period was 5 months. But sample size was only 38. More strong result would find if the sample size was larger. 6. Need to review reference list as there are few mistakes.	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	1. Better to make separate paragraph for Objective (Correct Capitals) and Main out come in Abstract section. 2. Male and Female participants need to present separately with possible relation to other variables.	
Optional/General comments
