

## Review Form 1.7

Journal Name:	<b>Biotechnology Journal International</b>
Manuscript Number:	<b>Ms_BJI_99020</b>
Title of the Manuscript:	<b>Inhibitory Effect of Gallium Nitrate Against Staphylococcus aureus and Its Action on The Formation of Biofilms on Titanium Surfaces</b>
Type of the Article	<b>Original Research Article</b>

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalbjournal.com/index.php/BJI/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments 1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript) 2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title) 3. <b>Is the abstract of the article comprehensive?</b> 4. <b>Are subsections and structure of the manuscript appropriate?</b> 5. <b>Do you think the manuscript is scientifically correct?</b> 6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b> <b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b>	<p>Yes, it is important for Scientific community as now a days implants have become very common and biofilm formation on implants poses a huge risk.</p> <p>Yes, as they have worked on inhibition of biofilm produced by S. aureus by gallium nitrate, and also inhibition on implants ie. Titanium.</p> <p>Yes it is.</p> <p>Subsections and structure of manuscript seems to be quite appropriate.</p> <p>Researches are going on for inhibition of biofilms. It is one of the trial in this field.</p> <p>References are sufficient although all are not recent but have included most of the work done on the topic.</p>	
<b>Minor</b> REVISION comments 1. <b>Is language/English quality of the article suitable for scholarly communications?</b>	Language quality of the article is good.	
<b>Optional/General</b> comments	Good amount of information is provided by the author on the topic.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	(If yes, Kindly please write down the ethical issues here in details)
