| Type of the Article      | <b>Original Research Article</b>   |

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalibrr.com/index.php/IBRR/editorial-policy> )

### PART 1: Review Comments

|   | Reviewer's comment  | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|---|---|
| <b>Compulsory REVISION</b> comments<br>1. <b>Is the manuscript important for scientific community?</b><br>(Please write few sentences on this manuscript)<br>2. <b>Is the title of the article suitable?</b><br>(If not please suggest an alternative title)<br>3. <b>Is the abstract of the article comprehensive?</b><br>4. <b>Are subsections and structure of the manuscript appropriate?</b><br>5. <b>Do you think the manuscript is scientifically correct?</b><br>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b><br><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b> | It is a good and well written manuscript but the following should be addressed. . .<br><br>1. The study is not a prospective study but cross-sectional study. A prospective study usually involves taking a cohort of subjects and watching them over a long period.<br>2. The author should state the method he or she used to determine ABO genotype. |   |
| <b>Minor REVISION</b> comments<br>1. <b>Is language/English quality of the article suitable for scholarly communications?</b>   |   |   |
| <b>Optional/General</b> comments  | Table 4 5 & 6 should not be after discussion. It should be with other results.<br>Number one in reference section should be stated properly for more understanding  |   |

### PART 2:

|   | Reviewer's comment   | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|--|---|
| <b>Are there ethical issues in this manuscript?</b> | <i>(If yes, Kindly please write down the ethical issues here in details)</i> |   |
