PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|--|---|
| Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments) | 1.I want to know the manuscript send to me to review is a review paper or a research article. If it is research article then the manuscript is lacking scientific and research data. If it is a review then this is not a review. The review is written very poorly and grammatically not corrected. Manuscript needs to be review by native English speaker prior to be submitted again to the journal. The author did not follow the basic instruction to write a review on a very important topic of Role of nutrients in plants, deficiency and management. 2. title is suitable 3.the structure of the manuscript is not sufficient for publication 4.The manuscript lacking the figures and tables with data 5. the title is important but the organization and writing style is not impressive 6.references are old and last five years reference apart from one 2016 not included | |
| Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications? | | |
| Optional/General comments | I am surprise and unable to understand about the structure of the manuscript. Is it a review or scientific/research article If it is a review then not properly written and need major revision If it is a scientific paper then lacking original data | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|--|---|
| Are there ethical issues in this manuscript? | <i>(If yes, Kindly please write down the ethical issues here in details)</i> | |
