

Editor's Comment:

It is interesting with the following observations, also indicated by my colleagues:

The title is too long;

2. The structure of the paper: Introduction, Literature review, Methodology (what methodology is used), Results of the study, Conclusions;

3. Conclusions are so general, because there are no examples, cases, to present the realities of a college/university assembly and further what to do for improvements required;

4. References are wrong written:

the authors in the alphabetical order of the author's last name and immediately after the author's name is the year of publishing; e.g. Fenxian J. (2019), as first reference and so on..

A quick revision in this matter and the paper is ok to be published.
