

**Editor's Comment:**

I read the article ( AMELIORATIVE POTENTIALS AND TISSUE-PROTECTIVE EFFECTS OF METHANOLIC EXTRACT OF PERSEA AMERICANA SEEDS ON RENAL FUNCTION IN ALLOXAN-INDUCED DIABETIC WISTAR RATS ) and the reviewers' comments. The authors have done the comments of the reviewers. In addition, the above article is well written, But there are some points in the text that must be edited before publication. I commented some of these points in the text. It is acceptable after revised coments.

**Editor's Details:**

Dr. Hadi Yousefi
