

Review Form 1.7

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_97676
Title of the Manuscript:	Application of Municipal Solid Waste Compost and Green Manure Exerted Residual Effects in Soil Nutrient Content and Plant Nutrient Uptake in Rice
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	1. The manuscript is important for scientific community, knowing that the global upsurge in population, rapid urbanization, and industrialization increasing waste production in urban areas. In addition, the topic of the manuscript is interesting because rice is the main food in Bangladesh. So, the present study was undertaken to evaluate the enriched municipal solid waste compost on rice nutrient content and uptake as well as the growth and yield of rice. The authors concluded that the benefits to the soil of adding organic matter as well as N with compost can increase longer-term soil productivity. 2. Yes, the title of the abstract is suitable. 3. The abstract of the article is comprehensive. 4. The subsections and structure of the manuscript are appropriate. 5. Yes, the manuscript is scientifically correct. The text is clear and easy to read. 6. The list of references is relatively recently.	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	The English quality of the article is suitable for scholarly communications.	
Optional/General comments	Attention at the reference list. Is not written uniformly. Please to verify.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
