### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <ol style="list-style-type: none"> <li>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</li> <li>2. Is the title of the article suitable? (If not please suggest an alternative title)</li> <li>3. Is the abstract of the article comprehensive?</li> <li>4. Are subsections and structure of the manuscript appropriate?</li> <li>5. Do you think the manuscript is scientifically correct?</li> <li>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</li> </ol> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Reviewer; I find this manuscript to be of interest to summarize the characterization of organoleptic properties of different herbal material that has antioxidant properties and could be used for treating and extending the shelf life of a drink from Tiger nut. I am generally supportive of publication with required edits that should be incorporated in the next revision. Specifically, the writing should be good for readers of this journal.</p> <ol style="list-style-type: none"> <li>1. Authors should be rewriting the title without flow stop and please use the style of the journal</li> <li>2. The third sentence In the abstract is very long and there is not necessary to repeat (2kg of tiger nut) in the sentence, Authors should rewrite the sentence, please!</li> <li>3. The interdiction so long, should be shorter with no more than 500 words and the authors should write some sentences correctly. Such as (At present, the popularity of "Kunu Ayaya" has been extended from the Northern part of Nigeria to another part of the country, then extended to other African countries) Lawal et. al., 2013 Robert et. al., 2011.</li> <li>4. Please reconsider the blank (commas) before the dot or heap and delete.</li> <li>5. In the section of MATERIAL AND METHODS, the authors could be shown the method and procedures how experiments have done, and obtained the results (a, b, c) following the style of journals' paper.</li> <li>6. Authors could please explain the scintific reason for your suggestion that Parkia biglobosa and Adansonia digitata are good candidates for the antioxidant ability for storing the Tiger-nut drinks. For example, this herbal makes the medium is acidity or alkali, and/ or the other reason?</li> </ol>	
<p><b>Minor</b> REVISION comments</p> <ol style="list-style-type: none"> <li>1. Is language/English quality of the article suitable for scholarly communications?</li> </ol>	lacceptable	
<p><b>Optional/General</b> comments</p>	no
