<b>Compulsory</b> REVISION comments  <b>1. Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)  <b>2. Is the title of the article suitable?</b> (If not please suggest an alternative title)  <b>3. Is the abstract of the article comprehensive?</b>  <b>4. Are subsections and structure of the manuscript appropriate?</b>  <b>5. Do you think the manuscript is scientifically correct?</b>  <b>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b>  <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u>	Yes  Yes  <b>No. Need to rewrite to be complete short reflection of what has been discussed in the manuscript.</b> Ok  ok  Represented data should be cited from reputed organisational reports. Introduction should clearly indicate the necessity of such review or discussion on groundnut-phosphorus relationship along with general effect of phosphorus on plant biochemical properties and activities. Since manuscript is review paper on groundnut-phosphorus relationship, so it is strongly suggested to focus on experiments on groundnuts only and remove discussion on other crops. Hence, under each trait it is suggested to discuss experiment based on sole phosphorus treatments on groundnut first and thereby combination treatments. More reference is required on groundnut-phosphorus relationship. Add varietal and location information of the experiments to have proper knowledge on experimental condition.	
<b>Minor</b> REVISION comments  <b>1. Is language/English quality of the article suitable for scholarly communications?</b>	ok	
<b>Optional/General</b> comments
