

## Review Form 1.6

Journal Name:	<a href="#">International Journal of Environment and Climate Change</a>
Manuscript Number:	Ms_IJECC_89423
Title of the Manuscript:	Floral biology and Breeding System in Kodo millet ( <i>Paspalum scrobiculatum</i> )
Type of the Article	Review Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>Abstract should be rewritten based on the scientific evidences or research results. Key words should be arranged alphabetically. Format the references both in text and reference section as per journal style. Introduction must be shortened highlighting the aims of the article. Origin, domestication and taxonomy, Area of Cultivation, Climate resilience crop, Special Features and Nutritional profile of Kodo millet sections are out of context (not required as per the article's topic and objectives) Author(s) should shorten the article highlighting the features. Research outcomes of scientists/researchers can be represented in tabular/graphical forms. Photographs must be properly labelled and supported with reference if taken from external sources. Conclusion is missing and it must be written with strong outcomes and future perspectives.</b>	
<b>Minor</b> REVISION comments	<b>The climate model predicts that by the end of 21<sup>st</sup> century, South Asia will be the most adversely affected region by climate change and variability. -----requires reference. Any sentence containing any data or information must be supported by reference. Follow this in entire article.</b>	
<b>Optional/General</b> comments	The article requires major corrections, only after which it can be accepted for publication.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
