	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <ol style="list-style-type: none"> <li>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</li> <li>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</li> <li>3. <b>Is the abstract of the article comprehensive?</b></li> <li>4. <b>Are subsections and structure of the manuscript appropriate?</b></li> <li>5. <b>Do you think the manuscript is scientifically correct?</b></li> <li>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></li> </ol> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p><b>Abstract:</b> Use italics for botanical name L* and a* color, there was a significant effect (P&lt;0.05) in the b* color test????????????? What does * indicates should not use abbreviations in abstract</p> <p><b>Introduction:</b>  from sol to gel form what is sol????? between polymers/termolecular strength what is termolecular????? O2 what does it mean?????? Butterfly pea (<i>Clitoria ternatea</i> L.) botanical name italics filbatanins,???????????????????? anticial,???????????????????? CIEL*a*b* method what is the fullform of CIEL????????????????????</p> <p><b>Materials and Methods:</b>  Ethanol PA what is PA stands for ?????????????????? the edible film then was waited to dry for 24 hours waited no meaning 2 grams use standard abbreviation 0.1gram use standard abbreviation No References for Materials and methods No one can understand what CIELAB means its information has to be given in introduction There are many grammar mistakes in sentences in Introduction, Materials and Methods also</p> <p><b>Results and Discussion:</b>  value of IC50 representation is wrong According to Kusumawati (2013) the antioxidant . Huri and Nisa (2014) identified that phenol has a very significant contribution to the antioxidant activity of edible films. The higher the total phenol, the higher the antioxidant activity. Antioxidant activity Have u done the experiment or not it looks u have copied results from some references because for materials and methods didn't give references but for Results you have given references for this Results and Discussion</p> <p>Figure numbers and caption should be below the figure</p> <p><b>References:</b> Check all the References for uniform format some page numbers are missing and others university names were written instead of page numbers etc</p>	
<p><b>Minor</b> REVISION comments</p> <ol style="list-style-type: none"> <li>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></li> </ol>		
<p><b>Optional/General</b> comments</p>
