

Review Form 1.7

Journal Name:	European Journal of Medicinal Plants
Manuscript Number:	Ms_EJMP_103773
Title of the Manuscript:	Elucidating the Anti-inflammatory Properties of Garcinia kola and Vernonia amygdalina through In Silico Molecular Biology Techniques
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalejmp.com/index.php/EJMP/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Its very novel study</p> <p>yes The use of in silico molecular biology techniques to identify and characterize the anti-inflammatory compounds in Garcinia kola and Vernonia amygdalina.</p> <p>Yes</p> <p>Write up for entire article can be modified</p> <p>Yes. Discussion and results have to be elaborated</p> <p>References are till date. Reference not cited correctly redo that</p> <p>Significance of the findings and remarks about the study.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Must be modified. Language correction</p>	
<p>Optional/General comments</p>	<ul style="list-style-type: none"> • what are the in silico molecular biology techniques that have been used to study the anti-inflammatory properties of Garcinia kola and Vernonia amygdalina? • What have these studies found about the anti-inflammatory properties of these plants? • What are the potential applications of these findings? • What are the limitations of these studies?
