	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. This is a report on what kind of study was performed. For those in this field it might be of interest</p> <p>2. Yes</p> <p>3. Yes</p> <p>4. Yes</p> <p>5. Yes</p> <p>6. No suggestions</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The version as I read it has some minor errors.</p> <p>for monitoring –og-- crop and water from Google Engine Engine was processed</p>	
<p>Optional/General comments</p>	<p>The author uses the word water tank. I have the imagination of a large metal cylindrical structure but the size of the water volume mentioned makes that I have problems to believe this is the reality. Maybe the wording water reservoir might be a better choice. It is not clear for me how water spreads from the tanks/reservoirs. A few more words might help understand the article for those that not have the experience at that place.</p>
