Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. Partly. The article (its results) is applicable in production practice.</p> <p>2. Title of article generally correspond with the manuscript content.</p> <p>3. Comprehensiveness of abstract is at an acceptable level.</p> <p>4. Structure of manuscript is appropriate generally, but part Conclusions is missing!</p> <p>5. The manuscript is generally scientifically correct. The article generally meets the criteria for original research paper. I recommend adding (editing) the part Material and Methods (see comments of reviewer in manuscript).</p> <p>6. The references are recent. But the number of references not fully meets the criteria for Short Research Articles resp. Original research paper. Not all references are cited in manuscript/article, resp. not all cited authors/sources are listed in References. All References must be cited in article and all cited authors/sources must be listed in References. This problem must be solved! Check and unification of reference format is needed (see instructions for authors https://journalijpss.com/index.php/IJPSS/about/submissions#authorGuidelines).</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The article requires a language revision.</p>	
<p>Optional/General comments</p>	<p>Use your own photo documentation in the article. Suitable and more complex statistical processing of data is very important.</p> <p>I recommend adding (editing) the part Material and Methods (see comments of reviewer in manuscript). The discussion is "very brief". Part Conclusions is missing! It is necessary to prepare part Conclusions - considering the results, it will not be a problem for the authors. Not all references are cited in manuscript/article, resp. not all cited authors/sources are listed in References. All References must be cited in article and all cited authors/sources must be listed in References. This problem must be solved! Check and unification of reference format is needed (see instructions for authors https://journalijpss.com/index.php/IJPSS/about/submissions#authorGuidelines).</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p>Not.</p>
