

Review Form 1.7

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_104152
Title of the Manuscript:	Effect of Different Mulching Material on Watermelon [Citrullus lanatus (Thunb.)] Hybrid Under Prayagraj Agro-Climatic Condition
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. Yes, but need revision to give in-depth information and evidence</p> <p>2. No, and I suggest the new title as "Effect of different mulching materials on growth and yield of watermelon under Prayagraj agro-climatic condition"</p> <p>3. No, and I suggest briefly providing information on this research, for example, about the climatic regions or mulching, to guide the reader. This includes brief information on treatment used for this research, value represented with superior yield, etc.</p> <p>4. Yes, but the author needs to revise the introduction by providing more information regarding mulching (natural and synthetic), etc. This includes materials and methods section, where authors need to provide their selection of seedlings, crops, soil, parameter they use and others. While for results and discussion section, author need to discuss their findings, including supporting statement or evidence support their findings</p> <p>5. Yes, but need to revise accordingly</p> <p>6. Yes, but more references will be added when the author improvises the manuscript</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Yes	
<p>Optional/General comments</p>	Refer to the attached manuscript
