

Review Form 1.7

Journal Name:	Journal of Materials Science Research and Reviews
Manuscript Number:	Ms_JMSRR_103940
Title of the Manuscript:	Review on mechanical performance of concrete laminated slabs
Type of the Article	Minireview Article

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for the scientific community? (Please write a few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestions for additional references, please mention them in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. This manuscript is definitely important for the scientific community.</p> <p>2. Yes, the title is appropriate for this article.</p> <p>3. Yes, the abstract of the article is comprehensive.</p> <p>4. Yes, the subsections and structure of the manuscript are appropriate.</p> <p>5. Indeed, this manuscript is scientifically correct.</p> <p>6. Yes, the references in the manuscript are proper, recent, and sufficient. However, the author should write the references alphabetically.</p> <p style="text-align: center;"><u><i>Additional Suggestions/Comments</i></u></p> <p>Title: No revision is required. Abstract: No revision is required. Introduction: A Minor revision is required. The reviewer found some grammatical and punctuation errors. Research On the Mechanical Performance of Laminated Slabs: No revision is required. However, the reviewer found some errors in punctuation. Study on Seismic Behavior of Laminated Slabs: A Minor revision is required. The reviewer found some grammatical and punctuation errors. Research Status of Indirect Lap Splices of Reinforcement Bars at Home and Abroad: A Major revision is required. The reviewer found so many grammatical and punctuation errors. Development Trend and Prospect: A Major revision is required. The reviewer found so many grammatical and punctuation errors. References: A Major revision is required. The author should write the references alphabetically.</p>	
<p>Minor REVISION comments</p> <p>1. Is the language/English quality of the article suitable for scholarly communications?</p>	<p>1. This article is written in simple, complex, and compound sentences. Moreover, extensive vocabulary is used here. Most sentences follow standard English grammar rules and are structurally sound. Thus, the English quality of the article is suitable for scholarly communication. However, some English grammatical and punctuation errors are noted in this paper. Therefore, a major revision of English grammar and punctuation is required before publishing this paper.</p>	
<p>Optional/General comments</p>	<p>There is no need.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><u>(If yes, Kindly please write down the ethical issues here in details)</u></p>
