

Editor's Comment:

After studying the paper, I found the following:

1. Title of the paper is ok.
2. Abstract is adequate.
3. Keywords are sufficient.
4. Introduction is explanatory.
5. Analysis and Hypothesis are meaningful.
6. Research design is appropriate.
7. Conclusion is comprehensive.
8. References are recent and old i.e. mix.

Overall, I recommend the manuscript entitled "The Influence of technological innovation level on high-tech industrial agglomeration : the Chinese Experience" for Publication.
