PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1- Yes. It's an interesting subject and is applied to many antibiotics to follow patients and if uraemia decreases after the stop of the drug, that has happened most probably because of the used drug. Uraemia could be acute or chronic, but Uremic syndrome must be chronic, so please correct this paragraph.</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>There are many writing style errors (Ex: 'beta lactamase' should be replaced by 'beta-lactamase' in line 9 in the 1st page, 'the' should be replaced by 'in the' in line 14 in the 1st page).</p>	
<p>Optional/General comments</p>
