

**Editor's Comment:**

While going through the manuscript following observations were made:

1. Some of the references are missing in the references section( marked by me).
2. The references are not as per the format of the journal.
- 3.The references quoted (in between the lines in the m/s) are not as per the format of the journal (like 'i.e' should be in italics).
4. The conclusion should include the short summary of the work done not what should be done or what the observations of others are.
5. Some of the additions/deletions/ corrections have been made on the ms attached herewith

May be considered for publication after modifying as mentioned above.

**Editor's Details:**

Dr. Sanjay Kumar Raina  
Assistant Professor, Sher-e-Kashmir University of Agricultural Sciences and Technology of Kashmir,  
India.
