

Review Form 1.7

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_103583
Title of the Manuscript:	Genetic and kinetic profiles of bacterial resistance enzymes to IMP and NDM type antibiotics in Gram-negative pathogenic bacilli
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Yes 2. Is the title of the article suitable? (If not please suggest an alternative title) Yes, if possible added the name of the country to the title of this research 3. Is the abstract of the article comprehensive? Yes 4. Are subsections and structure of the manuscript appropriate? 5. Yes 6. Do you think the manuscript is scientifically correct? Some correction must be made 7. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u>	Keywords; <i>bla_{VIM}</i> must be replaced by <i>bla_{IMP}</i> Introduction Recent references must be added to this section. Materials and Methods: The Manufacture, company (Origin) of culture media and antibiotics disks must be mentioned. The antibiotics concentration for each disk must be mentioned. Patients details (number, sex, age) must be mentioned. - The diameter of zone inhibition around the antibiotics disks, which reference the author depend on to classify bacteria as resist or sensitive, this must be mentioned in Antibiotic susceptibility testing. Results Figure-6 and figure -7 all bands must be labelled with their sizes.	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
