(If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. Studies on menstrual hygiene in the developing world have found that most women and girls regularly failed to maintain a healthy menstrual hygiene practice. This study aimed to assess the knowledge and common Menstrual Hygiene (MH) practices among female students at Government Day Secondary School (GDSS) Tal, Billiri Local Govt Area of Gombe State, Nigeria, using a cross sectional descriptive study design.</p> <p>2. Knowledge and Practices of Menstrual Hygiene among Female Secondary Students, Gombe State, Nigeria.</p> <p>3. The abstract needs correction, nothing about the methods of the research was mentioned, how subjects were selected, what tool was used to collect data, how data was collected ...etc., Then please mention the results which tell us the answer of your objectives after brief description about your sample as you already did. Finally you should add conclusion and conclude your results</p> <p>4. Yes it is good, please merge table 5 and 7 in one table, please add one table clarifying the items of knowledge questions and the correct answer s distributions</p> <p>5. yes, the manuscript is scientifically correct</p> <p>6. The references are sufficient, hope they can find any results in 2022 and 2023</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Yes it is okay	
Optional/General comments
