| Title of the Manuscript: | <b>Educational innovations in the approach of outpatients to improve health literacy: a prospective study</b> |
| Type of the Article      | <b>Original Research Article</b>  |

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljammr.com/index.php/JAMMR/editorial-policy> )

### PART 1: Review Comments

|   | Reviewer's comment   | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|--|---|
| <b>Compulsory REVISION</b> comments<br><br>1. <b>Is the manuscript important for scientific community?</b><br>(Please write few sentences on this manuscript)<br><br>2. <b>Is the title of the article suitable?</b><br>(If not please suggest an alternative title)<br><br>3. <b>Is the abstract of the article comprehensive?</b><br><br>4. <b>Are subsections and structure of the manuscript appropriate?</b><br><br>5. <b>Do you think the manuscript is scientifically correct?</b><br><br>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b><br><br><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u> | <b>Patient education about their disease and their care is essential in the management of any disease, which is why the work is of interest to clinicians.</b><br><br><b>the title is appropriate</b><br><br><b>it is understandable</b><br><br><b>It's appropriate</b><br><br><b>I think it's right</b><br><br><b>Add more references</b>                   |   |
| <b>Minor REVISION</b> comments<br><br>1. <b>Is language/English quality of the article suitable for scholarly communications?</b>   | Need to review the language  |   |
| <b>Optional/General</b> comments  | One of the factors for the success of treatment in patients is that the patient understands the characteristics of his disease, the care and medications he must take, to the extent that the patient has this knowledge, the success of the management will be greater. Therefore, I consider that it is an article of interest for the clinical community. |   |

### PART 2:

|   | Reviewer's comment   | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|--|---|
| <b>Are there ethical issues in this manuscript?</b> | <i>(If yes, Kindly please write down the ethical issues here in details)</i> |   |
