For example, problem statement need to be clear; methodology will be detailed , results need some statistiacal tests for exemple SOC between different land use, discussion need also to be detailed.</b></p> <p>2. <b>No, Soil carbon stocks under different land use systems of Somawarpet taluk, Kodagu District</b></p> <p>3. <b>Yes, but need some reformulation or correction</b></p> <p>4. <b>Yes</b></p> <p>5. <b>No, some but not exhaustive comment were provide in the MS</b></p> <p>6. <b>Yes, but need to recent because references provides are old</b></p> <p><b>Others comments concern:</b></p> <p>In introduction, they are weak reference because many information provide don't have the references; problem statement it is not clear; Objective of the manuscript was not found. For methodology: please you need to detail your data collection procure/ firstly, how have you selected/identified target land use? There are only target land of the study area, if no, justify why this study was focused only on these. Secondly, for each land, how have you selected the place where soil data were collected seeing that it is know that one land is not uniformalise distributive. Thirdly, descript that procure use for data collection on the field. Lack presentation of laboratory and data analysis section. Finally what about potential data analysis?</p> <p>Results and discussion: can you detail more results? I suggest to make statistical analysis to compare SOC in function of the land use and depth; it can help you to support the figure 2. Discussion need also to be detailed and focused on the finding of this results</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>Language is not suitable for shlorly communication, this MS need to be read by a native speaker to update English language</p>
