If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes</p>	
<p>Optional/General comments</p>	<p>The research is one of the good researches in this field, and the appropriate research and analytical method was used, and the results were consistent with economic theory and statistically correct, so the research is good and does not contain scientific, statistical or spelling errors, but I advise the researcher to do the following:</p> <ul style="list-style-type: none"> - The research is very good and one of the good researches in this field. Use the experiment and extract its results in an excellent scientific way. The research is valid for publication without making any modifications to it, and if possible, if the researcher reviews the results more, as the research is important and has good results that can be explained better. - The rest of the research contents are excellent and there are no errors in either the research method or the logical review of the results 	

PART 2:
