

Review Form 1.7

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_103507
Title of the Manuscript:	Influence of Phosphorus and Zinc on Physio-chemical Properties of Soil on Cowpea (Vigna unguiculata L.)
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The paper is an original piece of research work on the advantages of using the Influence of Phosphorus and Zinc on Physio-chemical Properties of Soil on Cowpea (Vigna unguiculata L.). The review of literature is thorough and up-to-date. The references are very relevant to the particular subject. The tables are systematic and self-explanatory. The results, discussion summary, and conclusion are scientific and adequate. This piece of research work will stand as a milestone for not only increasing the productivity of Cowpea with sustenance of soil health, but it will also help future researchers as a foundation to work on this specific aspect particular subject. The tables are systematic and self-explanatory. The results, discussion summary, and conclusion are scientific and adequate. This piece of research work will stand as a milestone for not only increasing the productivity of Cowpea with sustenance of soil health, but it will also help future researchers as a foundation to work on this specific aspect.</p> <p>This paper is accepted for publication.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 		
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
