

Review Form 1.7

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_102966
Title of the Manuscript:	Effect of added phosphorous and organic matter on the availability of phosphorous fractions in normal soil under field capacity moisture tension
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. 7. Is the number of key words sufficient? <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes because it illustrates how the availability of phosphorus varies between the different stages of plant growth.</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Please provide at least 5 key words</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	<p>Please check "application of organic matter either in the form of sun hemb with phosphorus proved very useful in improving avoidable content of the soil."</p> <p>Please check: " Phosphorus has been called bottle neck of the world's hunger" "</p> <p>Please check: "This is true for large parts of the world, particularly Australia and South Africa where the crop production. Limited over enormous area by phosphate supply, Colling has stated as follows,"</p> <p>Please check: "excess of Na+ has antagonistic effect on the absorption of Ca and Mg+ and thereby may have depressing effect on the availability of phosphorus."</p> <p>Please review: "The availability of phosphorus in influenced by various factors viz. physico-chemical"</p> <p>Please review: "physical and chemical properties or the used soil as p^h 7.7 EC 0.7"</p> <p>Please review: "FYM@10 to/ha (T3)"</p> <p>Please provide the table number "presented in the table further revealed that concentration of Fe-P, irrespective of treatments,"</p> <p>Please review: "with finding of Von Wandraszka (2006), Mishra (1994) and Mitran et al.,(2016)"</p>	
<p>Optional/General comments</p>
