

**Editor's Comment:**

1) To my opinion the authors should check the reference list carefully. I have tried to add the missing information (pages, volumes, etc- all changes are marked by red color). Nevertheless, I am not sure that I have made all necessary changes. Besides, the authors should write full only of appropriate surname, but not the first name in citations. In this respect, they also should check the citations in the text: sometimes they use the first name for citations (for instance 'Nicole' instead of 'Rusk', or 'Jinzhu' instead of 'Lu')

2) Figure 4 contains 5 photos. It is necessary to decipher each.
