

Review Form 1.7

Journal Name:	Asian Journal of Biochemistry, Genetics and Molecular Biology
Manuscript Number:	Ms_AJBGMB_104413
Title of the Manuscript:	STUDY OF INTER-RELATEDNESS BETWEEN HEPATO-RENAL INDICES AND SELECT ELEMENTS DURING THE LAST TRIMESTER OF PREGNANCY
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajbgmb.com/index.php/AJBGMB/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. Yes. The study revealed no correlation between nutritional indices and hepato-renal markers on one hand as well as birth weight on the other, signifying that the low birth weight range may not be related with the levels of nutritional markers.</p> <p>2. NO. "Select elements" it's not suitable</p> <p>3. Yes 4. Yes 5. Yes 6. Yes</p> <p>7. Add please</p> <p>8. You wrote: "The serum elements were assayed using Inductive Computerized Plasma Emission Spectrometry". What do you mean by serum elements? You didn't specify the methods by which you determined Cr, Mg, Ca, Fe, albumin, globulin and total proteins. Also add the names of the used devices.</p> <p>9. The reference values for all determined biochemical parameters must be added</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>1. Moderate editing of English language is required</p> <p>2. You wrote: "This study is design to further fathom the relationship between nephron-hepatic indices and mineral levels at the last trimester of pregnancy." Only mineral levels?</p>	
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
