

Editor's Comment:

I inform you that I carried out an analysis of the manuscript "Comparative analysis of the prevalence of musculoskeletal pain and discomfort in truck drivers by age group", the reviewers' evaluations and the response given by the authors of the article, which met most of the pending issues pointed out by the reviewers, which motivated my decision to accept the publication of the article.

Editor's Details:

Dr. Ione Maria R. Soares Lopes
Associate Professor, Federal University of Piaui (UFPI), Brazil.
