

**Editor's Comment:**

This manuscript is readied for publication acceptance after the following corrections:

1. Two of the keywords duplicate the same as in the paper title. Other selections should be re-chosen.
2. Please use "and" instead of "&" throughout the entire text.
3. Use "et al." in text citations with more than 2 authors.
4. Last paragraph in the introduction section is redundant and may be deleted.
5. Many punctuation errors have been detected, especially in the reference listing.
6. One or two references have not been alphabetically ordered.

Some English syntax errors have been noticed. Therefore, a thorough proof-check and English language check is highly recommended.
