Review Form 1.7

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| <p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p> | <p>1. YES</p> <p>This study was intended to determine the effect of home-made formula on growth performance of malnourished pre-school children in Yobe State, Nigeria.</p> <p>It was found that Home Made Formula was effective in managing malnutrition in pre-school children. Therefore, it is recommended as alternative therapeutic food.</p> <p>2. YES The title of the article is appropriate for study design</p> <p>3. YES Abstract of the article is more comprehensive by following all the principles</p> <p>4. YES Appropriately written.</p> <p>5. YES. Well organised. Well written. Ample tables showed scientifically appropriate</p> <p>6. Sufficient and recent references are provided.</p> <p>This study determined the effect of home-made formula on growth performance of malnourished pre-school children in Yobe State, Nigeria. Owing to the high prevalence of malnutrition it becomes necessary to develop local alternative therapeutic formula. The positive growth performance of children fed Home Made Formula demonstrated that the formula was balanced and provided the energy and protein needed for rehabilitation of malnourished pre-school children</p> | |
| <p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p> | <p>YES. Written in simple language. Easy to read and easy to understand. The article is very much suitable for scholarly communications.</p> | |
| <p>Optional/General comments</p> | <p>Well organised, well written manuscript. Major language errors and grammatical mistakes are not noticed. Manuscript is suitable for scholarly publications.</p> | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| <p>Are there ethical issues in this manuscript?</p> | <p><u>(If yes, Kindly please write down the ethical issues here in details)</u></p> | |
