If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. Is the manuscript important for scientific community? Yes, observation of rare case of SMA is important for scientific community.</p> <p>2. Is the title of the article suitable? No, I suggest "Spinal Muscle Atrophy (SMA) in a 5 years old girl from Macedonia: case report"</p> <p>3. Is the abstract of the article comprehensive? No, in Asian Journal of Pediatric Research the Abstract of the Case reports should have the following sections: Aims, Presentation of Case, Discussion and Conclusion.</p> <p>4. Are subsections and structure of the manuscript appropriate? No, in Asian Journal of Pediatric Research Case Reports should follow the structure of Abstract, Introduction, Presentation of Case, Discussion, Conclusion, Acknowledgements, Competing Interests, Authors' Contributions, Consent (where applicable), Ethical approval (where applicable), and References plus figures and/or tables. This manuscript under my review lacks the section of "Presentation of Case"</p> <p>5. Do you think the manuscript is scientifically correct? Yes, I think the manuscript is scientifically correct.</p> <p>6. Are the references sufficient and recent? The author (authors) is not familiar with elementary rules of writing the manuscript, he (she/they) does not refer in the text to the reference list in the end. References must be listed at the end of the manuscript and numbered in the order that they appear in the text. Every reference referred in the text must also present in the reference list and vice versa. In the text, citations should be indicated by the reference number in brackets [3].</p> <p>7. additional suggestions I strongly recommend the author/authors to restrict introduction, to expand the case presentation, to publish the photo of the female patient (not girl) with shaded eyes, and to apply for consultation from more experienced colleges</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	No	
<p>Optional/General comments</p>
