No, the first sentence should include the reason why the experiment need to study.</p> <p>4. Are subsections and structure of the manuscript appropriate? Yes.</p> <p>5. Do you think the manuscript is scientifically correct? /As the comment suggests, there is room for improvement.</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. -</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p> | <p>For Ms_IJECC_105317, Influence of fruit bagging on the physical qualities and shelf life of mango cv. Alphonso under Ultra-High-Density Planting.</p> <ol style="list-style-type: none"> Please consider "under Ultra-High-Density Planting" in tile. Because the story made no comparisons in terms of planting styles. Recommend to include the reason for the study in the bagging in Alphonso mango. Please cite in previous of Alphonso mango bagging and find a gap to research, then rewrite in the Introduction. All table results should include post-hoc test analysis to differentiate between T1 through T6 treatments. Please include the scientific fruit-mechanism reasons for how the double bag affected those mango fruit characteristics when compared to the other bag/control. <p>.....</p> | |
| <p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p> | | |
| <p>Optional/General comments</p> <p>-</p> | | |
