EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
1. Plant collection and authentication Missing Stock number	A sample specimen was deposited at the Herberium
2.Extract preparation Missing reference	We have worked severally with numerous plants and standard protocols are usually observed in the preparation of the extract.
3.Animals Missing reference	There is reference for induction of lead toxicity in the animals
4. Conduct of the Experiments Missing reference	I have published several research findings in reputable journals with same format but different interventional agents
