	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory REVISION comments</b></p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes</p> <p>Yes</p> <p>The Abstract needs work. Start as follows:            -What is mungbean and its significance            -production/yield            -economic benefits            -challenges – geographical, etc            -purpose of the study            -methodology            -findings            -limitations</p> <p>Yes</p> <p>Mostly. Some references are absent</p> <p>Parihar AK et al (2022) Front. Plant Sci            Samyuktha SM et al (2020) Front. Agronomy            Noorzai &amp; Choudhary (2017) Ann. Agric. Res. New Series</p> <p><b>Introduction</b>            -Talk about the bean on the global, regional and local levels – production, nutrition etc            -potential yield            -climatic conditions and geography – how have climatic conditions affected yield in the past? What are current trends?            -current breeding strategies            -redesigning breeding approaches?</p> <p><b>Methodology</b>            - why the choice of Tashkent region? How does this region differ to the rest of the country?            -Ojizak and Navoiy zones have more land allocated to agriculture and the bean is drought tolerant            Why this methodology? What about multi-location experiment? Justification for your choice and limitations of same            -statistical approaches...justification for your choice            -What are agrotechnical measures? Are they established in the literature? If so, where are references            -the application of fertilizers. Why this method? Is it established in the literature?            -In the fifth paragraph of this section it states that “sowing...in the third decade of April            -the sowing scheme – is this established in the literature?</p>
