PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. The manuscript titled "An Economic Analysis of Processing of Rainfed Cotton in Virudhunagar District of Tamil Nadu" is important for the scientific community as it provides a comprehensive examination of the economic aspects of the cotton value chain, focusing on rainfed cotton production in a key district. By analysing costs, returns, and profitability across various stages, including farming, ginning, spinning, and weaving, the study offers insights into the economic viability of cotton processing. Its findings and recommendations for technology upgrades and policy adjustments hold relevance for stakeholders and policymakers seeking to improve the efficiency and sustainability of cotton production and processing.</p> <p>2. The title "An Economic Analysis of Processing of Rainfed Cotton in Virudhunagar District of Tamil Nadu" effectively conveys the focus of the study, which is centred around analysing the economic aspects of rainfed cotton processing in a specific district. However, if you're looking for an alternative title that might be slightly more concise while retaining the core message, you could consider: "Economic Analysis of Rainfed Cotton Processing in Virudhunagar, Tamil Nadu"</p> <p>3. Yes, the abstract of the article provides a comprehensive overview of the study's objectives, methodology, key findings, and implications.</p> <p>4. Yes, the manuscript's structure and subsections are appropriate.</p> <p>5. Yes, the manuscript appears to be scientifically correct in its approach.</p> <p>6. The references are sufficient and recent. I don't have any suggestions for additional reference materials.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes, the language and English quality of the article seem suitable for scholarly communication.</p>	
<p>Optional/General comments</p>	<p>The manuscript presents a comprehensive economic analysis of the rainfed cotton processing value chain in Virudhunagar district, Tamil Nadu. The structure is logical, allowing easy navigation. The abstract provides a concise overview of objectives, methods, and findings.</p>
