

Review Form 1.7

Journal Name:	Asian Journal of Fisheries and Aquatic Research
Manuscript Number:	Ms_AJFAR_104726
Title of the Manuscript:	Effects of dietary vitamin E supplementation on growth performance, body composition of golden trevally, <i>Gnathanodon speciosus</i>
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The manuscript title Effect of dietary vitamin E supplementation on growth performance, body composition of golden trevally, <i>Gnathanodon speciosus</i> is new, practical and suitable for scientific community. The experimental procedures are detailed and the results well presented. The results of this study are useful for information on vitamin c supplemented in the diet. However, it needs some revisions/improvements before publication, as follows:</p> <p>Title: The title is reflect the focused studied. It's necessary to edit the abstract section. The title must be reflected in the focus study. I advise the author to revise the abstract and provide a brief explanation of the research background, research significance, and research methodologies before introducing the primary research findings, results and the appropriate conclusions.</p> <p>Keywords: I suggest to rewrite keyword and try to avoid using same term in the title.</p> <p>Introduction: Line 2: Vitamin E can protect the phospholipids and red blood cells of farmed fish. Fish species? And this statement on the same species supported statement on line 4? For vitamin E supplements promote immune responses, increase survival and enhance growth performance, maintain the flesh quality?</p> <p>Methods General comments: <ul style="list-style-type: none"> - For Experimental fish and culture system, 300 fish will be divided in 12 composite tank? What is tank size ? - Experimental diets and husbandry: please write the list of ingredients that used in the basal diet. - Line 91: how many fish were collected for sampling? Will the fish be examined for heavy metals or just for growth? - How do you maintain the water quality? </p> <p>Result and discussion General comments: Illustration results clear, but try to discuss the result in detail with supported latest references.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Suggested to do proof reading	
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
