PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>In this report authors revise the Northern India trisomy in depth. It has done molecular performance with literature search to generate data. However, there are minor concerns with the manuscript as follows:</p> <ol style="list-style-type: none"> 1. Yes 2. Yes 3. Yes 4. Please Check one more time with the author instructions. Review them once again. Journal scope link: https://www.journalajbgmb.com/index.php/AJBGMB/about 5. Yes <p>6. No – Please strengthen with recent Trisomy papers. As the population worldwide is aging, we might have updates about the trisomy. We suggest other relevant rare disease references if they are qualitatively recent. One can add Trisomy 21 and another form of Down Syndrome which is not a trisomy but a translocation of the gene. Find this and precise analysis is required.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Partially, Nevertheless, the language is fairly written</p>	
<p>Optional/General comments</p>	<p>N/A</p>
